## RECENT PROJECT

# 1

### Installation Of 655 Nodes Access Points at Five Star Hotels In Jakarta

We installed an access point to meet network needs at one of the five star hotels in Jakarta.

There are 655 nodes that we worked on using our best tools. With a team that is experienced in the field of network installation, everything is completed on time according to the deadline given by the client.

## RECENT PROJECT

### 2

### **CCTV & Security System at FMCG Factory**

The CCTV installation that we did this time was at an FMCG Factory in one of the big cities in Indonesia.

Apart from installing CCTV, we also upgraded the centralized security system so that the security team can monitor the surrounding situation easily anytime and anywhere.

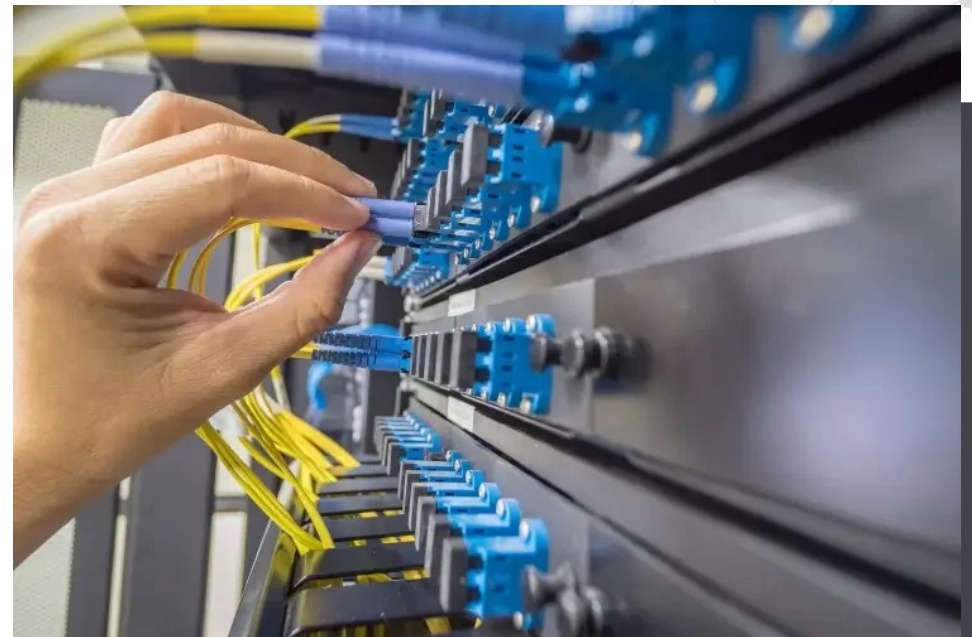

## RECENT PROJECT

### 3

### Fiber Optic Solution at Hospital

Fiber optic installation for network needs at a large hospital in Indonesia.

We provide the best service and carry out this work with a team that is professional in the field of mapping and fiber optic installation for hospital scale.

## RECENT PROJECT

# 4

### **Building Automation System – DALI, Sound System at Government Building**

We provide the best for automatic management systems for the use of sound systems in one of the government buildings. DALI Sound System makes it easy to manage and use by users.

With a professional team, the installation work was completed quickly according to the deadline.
